

SmartFAB - A Central Fabrication Facility

The Smarter Way to Fabricate

Efficiency is at the core of our fabrication process. This results in quicker turnaround times, allowing practitioners to focus more on direct patient care rather than on production logistics.

Partial Foot Prosthesis

All Partial Foot orders are delivered with an Allard AFO! We fabricate from slip sock, cast, or crush box & our measurement form.

COMBO™ Knee Hyperextension Orthosis

Let us fabricate your next knee hyperextension orthosis. We build from your leg tracing, design specifications & our measurement form.

Contracture Management Orthoses

We now assemble MultiMotion contracture management orthoses from our measurement form, saving you time in the workshop!

Quick Turn Around: Usually within 1 week
